PRVM ORGANIZATION

The Presidium is a UNIT engaged in RE-CERTIFICATION HEALTH in an integrated manner. There are 4 areas: Educational area, Therapeutic area, Social area, An organization area. Each area is assigned to the **achievement of the objectives qualifying Presidio**. Characterized by organizational **autonomy** and high degree of **professional responsibility**, with sufficient staff and **resources relevant equipment**.

There areas are divided into SECTION and SECTORS.

The health status of the Presidium is the result of the harmonic contributions of the various areas where the person responsible for taking the child in his report in a total integrated rehabilitation.

"We believe that proper action towards enabling our customers (people with severe mental deficiencies and/or with severe pervasive development disorder) cannot be separate from an integrated approach toward the subject.

It is certain that in face of these diseases no therapeutic approach or educational or

teaching itself has the completeness or the strength to be considered the only enabling resource."
